

Innovation and precision since 1977

EMMEGI STANDS OUT FOR ITS ABILITY TO PERFORM PRECISE, CUSTOMIZED AND HIGH-QUALITY PROCESSING, AND IS ABLE, IN THIS WAY, TO SATISFY EVEN THE REQUIREMENTS OF THE MOST DEMANDING MARKETS.

Founded in 1977, Emmegi represents a virtuous example of Italian company able to combine tradition, innovation and precision in over forty years of activity. Located in the heart of the Marche region, the company has been able to conquer high-profile international markets over time, establishing itself in sectors such as automotive, high pressure, hydrothermal, hydrosanitary and gas valves. A path that testifies the excellence and precision of the "Made in Italy" signed Emmegi.

Quality and customization

The company stands out for its processing of small turned parts and components in brass, offering a high degree of customization to meet specific customer requests. Each production phase is followed with the utmost care, from the preparation of the initial offer to the delivery of the product, guaran-

teeing high quality standards and responding to the requests of the most demanding markets. Quality, the fundamental pillar of Emmegi, is ensured by the use of advanced technologies and constant monitoring of production processes. The company uses cutting-edge optical and electronic instruments, combined with the expertise of highly qualified personnel. The turning phase is a feather in the cap, performed with maximum precision and supported by rigorous control

systems. The recent investment in a new parts washing machine guarantees the maintenance of the product's technical specifications and the excellence of the final quality.

A reliable partner

The recent acquisition of a new Nakamura Lathe also marks a further step forward in improving production capabilities, allowing even more precise and flexible processing. These strategic investments demonstrate Emmegi's desire to remain at

the forefront of the turnery sector, consolidating its role as a reliable partner for customers, both in Italy and abroad. Attention to technological innovation goes hand in hand with commitment to international markets. Emmegi successfully serves customers from Germany, France, Portugal, Spain, Denmark, China and other Asian countries, demonstrating a unique ability to combine rigor and flexibility in processing, together with the compliance requirements of each country.
